

# Migrate your client to Odoo

Automated tools to make your projects a success, your clients will love you!

## Step 1

You get a new Odoo lead or project that uses Xero or QuickBooks

## Step 2

Your prospective client is excited to hear they can convert their current system to Odoo with all their data, and that you will help them with training, customisation, support, hosting and more

## Step 3

You send your prospective client a co-branded link they use to connect their current system in only a few clicks

## Step 4

Your prospective client connects and is shown a thank you page and you receive an email with a link to their converted database that you can use to demo, test, train or go-live with

## Step 5

It's done! Your client is happy and is live quicker and easier than ever before
